

HALF-FACE MASK

AERO-GEAR/M60

Reusable half-face respirator with dual exhalation valves and twin bayonet ports

The **AERO-GEAR/M60** half-face mask is a reusable respirator that is easy to maintain, simple to use and comfortable for the wearer.

Its innovative design includes two exhalation valves, specially engineered to reduce breathing resistance and make exhaling easier, making it the ideal choice for comfort and versatility.

With two bayonet-type cartridge ports, it is a highly versatile respirator that can be used with all Helios Innovative filters and cartridges.

Made of high-quality TPE in a one-size design, the AERO-GEAR/M60 fits each user outstandingly well, ensuring a face seal that keeps contaminants out.

RECOMMENDED USES

- Welding
- Mining
- Paint shops
- Grinding
- Chemical industry
- Construction

TECHNICAL SPECIFICATIONS
